The Heart of Parkdale

On Wednesday March 23rd our community gathered for an information session in response to the recent violent assaults in our community. The meeting took place at the Parkdale Activity Recreation Centre (PARC). The meeting was packed with members; we were joined by supporters and friends from across the city.

The death of George Wass was on all our minds. George was violently assaulted and died from his injuries. George was murdered in our community in a senseless act of violence and our community wanted answers and a chance to show our solidarity.

You could feel the emotion in the room as Pat Capponi opened the meeting by reminding us all that we cannot allow the actions of one person to take away our home, and that Parkdale belongs to us. Pat asked for a moment of silence in memory of George. I never heard a room with so many people be so quiet. Then members of PARC spoke a few words about George. Many of those comments included how George could brighten a day with a simple “Hello”.

On Tuesday April 12 at noon, PARC will host a memorial for George Wass and 5 other members of our community who we have lost over the past few months.

Members of the Toronto Police were on hand to give us as much information as they could. Staff Inspector Peter Lennox, head of 11 Division, assured us that the police “are going to move heaven and earth to solve this case and to make sure it doesn’t happen again”. Many people asked questions and the police did their best to answer them and to make us feel safe. Constable Russ Golding gave us safety tips, recommending that we use a buddy system, stay in well-lit areas, and walk with purpose.

In the end I think we all felt safer knowing that we have a community that has a huge heart - that our hearts may be heavy but we can carry this burden together. We need to thank Victor Willis, Pat Capponi, and Lucy Costa for stepping up and bringing us together when we needed it the most, and we would like to thank the many agencies that came to support us that day. Now more than ever we need to remember that we are all in this together. Let’s make sure that we take care of each other. Our community continues to show that we have the capacity to care about each other. And that the heart of Parkdale is found in the strength of each of us.

Michael Creek
Voices From the Street

C/S Info Centre's Free Tax Clinic

C/S Info Centre runs a Free Tax Clinic. It is only for consumer/survivors of the mental health or addictions system who live in Toronto. If you have a simple return as described below and you have your tax documents, please call us to book your appointment: 416-595-2882.

The guidelines:

- If you are single your income must be under \$25,000.
- If you are a family your income must be under \$30,000 - 35,000.

We can't do your taxes if you have employment expenses, declared bankruptcy during the tax year, have business or rental income and expenses, or were living outside of Canada during the tax year. We can't do your taxes if you are also filing for a deceased person. These guidelines are set by the Canada Revenue Agency.

If you don't have your T slips then please call Canada Revenue at 1-800-959-8281 to have them sent to you. We can't do your taxes without them. Please note that our Clinic operates one day a week (Tuesdays).

Note: To get the third installment of the TTB - Transitional Tax Benefit in June 2011, you have to have your 2010 tax return completed by April 30, 2011.

You can also call the City of Toronto at 2-1-1 to locate a Free Tax Clinic near you.

OHRC Consultation with Racialized People with Disabilities

Ethno-Racial People with Disabilities Coalition of Ontario (ERDCO) and the Ontario Human Rights Commission will hold a consultation with racialized people with disabilities

The Ontario Human Rights Commission (OHRC) wants to learn about experiences of discrimination faced by racialized people living with addictions and mental health disabilities. The OHRC is holding this consultation to do research and create a policy that will outline the protections under the Human Rights Code based on mental health and addiction disabilities.

The OHRC and ERDCO are seeking participants for a focus group on Saturday April 2, 2011 from 11:00 am – 1:00 pm at the Centre for Independent Living in Toronto to talk about human rights, mental health and discrimination where you work, where you live, and in the services you receive.

Some topics for discussion may include:

- What are examples of discrimination that exist for Ethno-Racial people with mental health disabilities and addictions:
 - When looking for a job or requesting accommodation at work?
 - When accessing adequate, affordable and suitable housing?
- What types of negative attitudes and stereotypes about people with mental health disabilities and addictions lead to unequal treatment when accessing health and social services?
- How does discrimination based on mental health disabilities and addictions intersect with experiences of ableism and racism?

If you are interested in taking part in this event, please call Melissa Simas at 416-657-2211 or email coordinator@erdco.ca. We will accept RSVP's to participate until March 25, 2011. Attendant care, TTC travel expenses and light refreshments will be provided. Other accommodations may be provided upon request with reasonable notice. You will be notified by March 30, 2011 if you are one of the randomly selected people to participate.

Hunger Inquiry Report Available

On November 23, 2010 the Recession Relief Coalition convened a Hunger Inquiry at the Church of the Holy Trinity in Toronto. More than 30 expert witnesses — front line workers, social service agency staff, academics, community leaders, and people directly affected by hunger — provided testimony to the Hunger Inquiry's expert panel attesting to Toronto's worsening hunger problem. Panelists released a set of recommendations based on the evidence presented. A report of the proceedings is now available and is being widely distributed so that organizations will be able to use it as a resource to support their food security & anti-poverty advocacy work: *Hunger Crisis: Report of the Hunger Inquiry* (2011). This report contains shocking testimony about hunger in Ontario as well as recommendations to help resolve this preventable crisis. <http://www.povnet.org/node/4199> <http://recessionreliefcoalition.yolasite.com/hunger-inquiry.php>

Public Safety Alert: Man Wanted in 5 Separate Assault Investigations in 11 Division

The Toronto Police have issued a Public Safety Alert because an assailant has assaulted people with mental health issues in the Queen Street West and Jameson Avenue area in five separate incidents between January 11 and March 18.

The suspect, described as 5'8" to 6' tall with a stocky build, was wearing dark clothes with a black balaclava when he approached victims, assaulted them, and then fled the scene. One of the men who were assaulted has died. Anyone with information is asked to call police at 416-808-1100 or Crime Stoppers at 4 1 6 2 2 2 TIPS. www.theglobeandmail.com/news/national/toronto/parkdale-residents-fear-another-attack-after-mans-death/article1954159/ www.insidetoronto.com/news/local/article/970545--community-rallies-to-reclaim-their-home

Bringing in Women's Voices

Many Ontario women are living on incomes below the poverty line. Are you one of these women? Their income does not provide them with enough to pay the rent and feed their family. It's particularly tough for women raising children on their own.

Whether you are on welfare, disability, or working for low wages, women need affordable child care, affordable housing, and training and education to get better jobs.

The Ontario government has developed a strategy to reduce poverty and will be holding consultations in 2011 on what changes to make to welfare and disability programs. Full day kindergarten is being phased in and the government has announced a long-term affordable housing strategy.

These changes could have a profound effect on women's lives across the province so it's important that women share their experiences and ideas with the government and other organizations.

We would like to find out what are the best ways to involve women across the province in these discussions. We want to have your voice heard.

Over the longer term we are exploring the idea of building a provincial network connecting low and modest income women to express their views and provide input on programs for women's economic security.

By the way, there are a few options for women to fill out the paper survey, if they don't have access to the internet, such as by contacting Jacquie Maund, Project Lead at Campaign 2000 and do it over the phone or drop by one of our project partner's sites and do it locally. Here's the project web page where all the partners are listed: <http://www.campaign2000.ca/bringinginwomensvoices/index.html>

The Mental Health & Addictions Supportive Housing Network and the Supportive Housing for People with Problematic Substance Use Health Service Providers working group is pleased to announce that **referrals for supportive housing units for people with problematic substance use are now being accepted.**

Background

In 2008, 1,000 units of supportive housing for people with problematic substance use in Ontario were announced in the Provincial Budget. This program focuses on people with complex substance use challenges who may have a concurrent disorder. 272 of these units were designated for the Toronto Central LHIN. 200 of these units have been funded and are moving towards a phased implementation in 2011.

The goal of this initiative is to increase the health and social outcomes of people with problematic substance use who are frequent users of the addiction treatment system and emergency services by providing stable housing and appropriate support services. The program is based on the Housing First model, which provides supportive housing to people without requirements for engagement in addiction treatment or abstinence.

Currently, nine organizations form the Supportive Housing for People with Problematic Substance Use Health Service Providers partnership:

- Breakaway Addiction Services
- Fife House
- Fred Victor Centre
- Good Shepherd Non-Profit Homes
- Jean Tweed Centre
- LOFT Community Services
- Mainstay Housing
- Regeneration Community Services
- St. Stephen's Community House

Application Process:

Consumers can go to any of the nine partner agencies to fill in the screener and application form and be reviewed for eligibility without being turned away. Individuals may also apply online at the Toronto Mental Health Housing and Support Network website: <http://www.tosupportivehousing.ca/>

Print it out, fill it in and fax it to: 416-916-1689 or mail it to the Network office at: 205 Richmond St. West, Suite 301, Toronto, ON M5V 1V3

You will be contacted within five business days of receiving the application to confirm its arrival. The Network Office will determine your eligibility for this program and if you are eligible, your form will be forwarded to the appropriate housing provider for review and completion of the full housing application when a unit is available.

In order to qualify an individual must meet all of the following 4 criteria: have a severe and active substance use challenge (nicotine dependence, gambling and other forms of addiction aren't included); must be homeless or marginally housed; must qualify for a housing subsidy under criteria set by the Ministry of Health; must be a high intensity service user (i.e., a specified number of ER visits, admissions to WMS, hospitalizations, justice system contact).

Two-Year Post Doctoral Fellowship offered Ryerson University School of Disability Studies

The School of Disability Studies at Toronto's Ryerson University is pleased to announce a two-year post doctoral fellowship to support the scholarly contributions of a disabled woman. The fellowship seeks to bring to Ryerson's School of Disability Studies a disabled woman who has graduated in the past five (5) years from any discipline that will advance the interdisciplinary scholarship related to Disability Studies.

For more information contact: Melanie Panitch, DSW, Director, School of Disability Studies at 416-979-5000 x 6128 Fax: 416-979-5209 <http://www.ryerson.ca/ds>

Newcomer Speakers Bureau Graduation Ceremony

The Mennonite New Life Centre and Voices from the Street cordially invite you to come and meet our speakers and hear their stories. MC: Pat Capponi

Mad Pride Toronto 2011 Community Organizing

Do you want to learn more about Mad Pride and get involved in organizing Mad Pride festivities this year? Here's your chance! The first meeting happened on February 22nd. The next meeting is scheduled for Tuesday, April 12th from 2:00-4:00 pm at Parkdale Community Legal Services (PCLS), 1266 Queen St West, Toronto.

PREFER Annual Summit

The PREFER project is having its first annual summit on Saturday April 9th at the Toronto Central YMCA (20 Grosvenor St. near Yonge/College). The Summit is a learning and networking opportunity made possible by funding from the Ontario Trillium Foundation for the Participants who have been receiving education and training in Peer Support and the wider community of People in Recovery, Consumer/Survivors, and Recovery Supporting agencies and partners to network, share skills, knowledge and discuss opportunities for building a systemic culture that supports Recovery and embraces Peer Support.

A keynote address by Stephen Pocklington of **Well Beyond Recovery** will be followed by a variety of networking and learning opportunities as people from across the province gather to talk about recovery, recovery education, and peer support and employment in the mental health system for people with lived experience. The summit promises to be a gathering of leaders in the Peer Support movement across the province that will move us closer to building a culture that is grounded in Respect, Recovery, and Resilience.

We hope you attend! It's an excellent opportunity for PREFER participants, community members, C/S/X groups, mental health program administrators, social service students, mental health community associations, mental health, addictions, and related service agencies and foundations to learn from each other, deepen our knowledge of recovery, and gain a greater understanding of peer support and how to implement and support peer recovery education.

Space for resource and information tables is still available! So, if your self-help group, mutual support group, drop-in centre, peer program, or community health centre would like to have a presence or even a stack of program brochures on a table, please contact us today!

For information about the PREFER project, or how to get involved, visit: www.cultureofrecovery.org

FREE Registration is available online at: <http://prefersummit.eventbrite.com/>

We hope to see you at the Summit!

NEWSBYTES

Trans fats and depression. A study of 12,000 Spanish university graduates found that trans fats increased the risk of being diagnosed with depression while olive oil decreased the risk. Canadians consume much more trans fats than the people in the study and from highly-processed “junk” foods rather than “natural” foods like cheese and milk. The study shows an association rather than a causal relationship but one of the study’s authors says that it shows the trans fats come first, then the depression. http://www.kidsmentalhealth.ca/news_and_events/view_html_article_clinical.php?id=1508

Some Canadian doctors prescribe opioids at much higher rate. A study published in the *Canadian Family Physician* reports that some family doctors write prescriptions for opioid painkillers like oxycodone, morphine and fentanyl, at a 55 times higher rate than other doctors. Those who wrote the most opioid prescriptions had the highest number of patient deaths linked to opioids. <http://www.theglobeandmail.com/life/health/opioid-prescribing-practices-put-patients-at-risk-study-finds/article1941886/>

“Illness beliefs” effect recovery from psychosis. New research shows that the way a person perceives their experiences in early psychosis has a large effect on both their quality of life and outcome. Researchers say these results raise the possibility of targeting illness beliefs (“a collection of beliefs relating to how individuals make sense of, and understand, their health status.”) as a method of treatment. Published in the journal *Social Psychiatry and Psychiatric Epidemiology*. <http://www.inpsychiatry.com/news/article.aspx?id=91460>

Bipolar disorder associated with seasonal affective disorder. Researchers have found that people with bipolar disorder are almost 4 times more likely than others to have winter seasonal affective. They conclude that a seasonal pattern of mood fluctuation is common in bipolar disorder. Published in the *Journal of Affective Disorders*. <http://www.inpsychiatry.com/news/article.aspx?id=91425>

Geopolitical differences in rates of bipolar disorder. A World Health Organization survey of North and South America, Europe, and Asia, has found that India has the lowest, and the US the highest, rates of bipolar spectrum disorder. Published in the *Archives of General Psychiatry*. <http://www.inpsychiatry.com/news/article.aspx?id=91394>

ADHD and creativity. A study published in the *Journal of Personality and Individual Differences* reports that adults with ADHD have more creative achievement than other people. In the study of 60 college students measuring creativity across 10 different areas, the ADHD students scored higher in every category. This study followed up a 2006 study showing that people with an ADHD diagnosis did better on creative divergent thinking tests than others. <http://psychcentral.com/news/2011/03/14/a-creative-upside-to-adhd/24374.html>

Campaign for reduced transit fee. An article by Helen Henderson in the Toronto Star (March 18, 2011) reports a campaign by Community Living Toronto for people living on ODSP to pay a reduced transit fee. Community Living Toronto is an organization that advocates for people with intellectual disabilities. Seniors and students currently pay a reduced transit fee and many provinces have reduced fare rates for people receiving government assistance. <http://www.thestar.com/living/disabilities/article/955124--direct-access-extend-reduced-ttc-fares-to-people-with-disabilities-group-urges>

Places to go... People to see...
